intro

Here we are,back again on the scene with another fat issue,another crazy adventure in this world. As usual we want to show the european (and not only) subway scene,we want to take you into tunnel actions,backjumps,fat yards,fuckin guard and new brand security sistems.
We have a fuckin subway-mania and is just for this passion that we want to show you what is happening in the most bombed subway sistems,starting from the classical Stockholm and Berlin scenes,continuing with London,that seems to be bombed everyday more and more,arriving to places almost unknown,with a joung graffiti scene as Catania,Tokio,Santiago del Chile ecc ecc....
We focused our attentions on two of the craziest bombers in Europe: Banos,tons of style in London and around the world,and Panda,back in action with crazy skills after a non-active period.
But we dont want to loose time talking,facts and fotos speak better than thousand words.
